

Welcome to INMR World Congress the power industry event 2023

Dear business partner,

PPC Insulators is happy to invite you to our booth no.13 at the INMR WORLD CONGRESS 2023, which will be held in Shangri-La Hotel, Bangkok, Thailand, on November 12 - 15, 2023.

PPC Insulators as a globally leading supplier of electrical porcelain insulators is a long-term partner of this big event. This year our experts will again contribute to the congress with their technical speeches on the following topics:

Markku Ruokanen; Quality and R&D Director

- **Aging Behavior and Resistance of Ceramic Insulators**
- **Ceramic Insulators Recycling**

Amith Karanth; Application Engineer

- **World's Lightest and Slimmest 380 kV Porcelain Long Rod Insulator for Ultra-High Pollution Levels**

Our porcelain technology laid the foundations of the insulation industry and continues driving the development of insulators from a technical and ecological point of view.

PPC porcelain insulators confirm the fact:

“Porcelain is the insulation material of the Past, Present, and Future.”

We invite you to take a detailed look at our products, discuss your requests and get from our experts answers to your questions.

Looking forward to seeing you in Bangkok!
